## Ari stacking chair

model BO 1810 CSP, four legs

model BO 1811 CSP, sled base

800.313.3446 | [dedesigncorp.com](http://dedesigncorp.com)

### dimensions

20"	width
21"	depth
33.5"	height
19.5"	seat hgt

### features

A multi-purpose seating solution characterized by simple lines and great practicality. The shell is ergonomically designed, contouring to the user's body offering back support and a waterfall front seat edge designed to alleviate pressure from the back of the thighs.

### construction

One piece injection molded polypropylene shell with UV resistant colors. Seat is equipped with a center hole to prevent liquid stagnation. Stacking caps prevent scratching of the seat.

Four leg base is of chrome-plated steel tube with black nylon glides. Sled base is of chrome-plated wire frame with clear nylon glides. Both models stack six chairs on the floor and ten chairs high on a dolly.

### finish

polypropylene - standard  
- Black  
- Sapphire  
- Orange  
- Red  
polypropylene - optional  
- Light-gray  
- Lawn  
- Toasted  
- White  
frame  
- Chrome-plated

# Net stacking chair

model BO 960 CSP

800.313.3446 | [dedesigncorp.com](http://dedesigncorp.com)

## dimensions

21.5"	width
20"	depth
33"	height
17.75"	seat hgt

## features

A contoured, perforated polymer back which is reinforced by fiberglass. The perforated back offers proper support along with air flow for a more comfortable sit.

Chairs stack eight high on the floor and forty-five high on a dolly.

## construction

Seat is made of polymer that forms to the body with a waterfall front seat edge design. Ganging hooks are built into the glides. Frame is bent wire-welded steel rod and chrome plated. A stretcher is welded across the front for increased use and longevity.

## finish

polypropylene - standard  
- Black  
- Gray  
polypropylene - optional (min. order - 20)  
- Light Green  
- Red  
- Sand  
- White
