## design features

- a continuous line of metal detailing defines the edge and creates a strong visual line within the space
- a sense of openness and light is achieved through the use of the metal
- storage can be shaped in multiple ways creating valuable space where needed most

## components

### METAL FRAME

1 1/4" square tube protects face edges from impact

### LAMINATE

3/4" construction ensures durability in high impact areas. 1" thick tops provide visual substance. Edges are sealed with PVC edge banding

### DRAWER SLIDES

metal drawer sides with integrated ball-bearing rollers, positive stop and 1/2" laminate back and bottom

### BED FRAME

2" angle iron frame on 1 1/4" square metal legs. Supplied with 1/2" white laminate platform sealed with PVC edge banding. Platform is supplied in two pieces for easy handling

### HANDLES

- handle shown in brochure is GLOW in chrome
- standard handle is NERO96 in chrome
- optional handles are available at [campusfurniture.ca](http://campusfurniture.ca) | finishes

## finishes

### LAMINATE

for available laminate colors see [campusfurniture.ca](http://campusfurniture.ca) | finishes

### METAL

- silver epoxy is standard
- optional colors are available at [campusfurniture.ca](http://campusfurniture.ca) | finishes

Durability is of paramount consideration in these demanding environments. Each material is selected for its strength and performance. Quality core materials are surfaced in wear-resistant laminate and impact resilient edging. 1" thick surfaces and 3/4" gables provide visual and structural strength. Metal to metal connectors ensure added durability at all connection points.

This streamlined, well-defined line offers variation in desk, wardrobe and dresser configuration. The option of an overhead hutch on the desk helps to maximize the space of the student room. Mobile pedestals allow for flexibility, and additional storage space.

## Geo

1 1/4" square steel tube defines this line of sophisticated student furniture. Outlining the profile, bringing definition and clarity to the styling, this detailing ensures impact resistance at leading edges. The uniformity and consistency of height creates a strong visual within the room.
