simply selected.

The Lockers Essentials collection is designed to set you at ease. Sometimes you don't need a custom solution. Sometimes you simply need a good solution. Your staff needs a place to put things that is secure and private while they change from street clothes to uniform. The students need to drop their stuff somewhere they can trust. Fitness and athletic gear is piling up. It needs to be stored while the sweat is building. With a few simple choices these lockers create a welcoming environment, designed and configured to match your needs.

quickly supplied.

The Lockers Essentials Express program ensures a 10-day guarantee on these rapidly available designs. You sign off on the order and we start packaging the items moving them to you faster than you ever thought possible.

DE Design has taken all of its gained experience in building custom lockers for Golf and Country Clubs and large private Racquet Clubs and spun this expertise into Locker Essentials; an affordable package of well designed and engineered lockers for the places where only a few are required or more are needed but they are needed yesterday.

And how do we do this? Well, that is where experience comes in; stocked components, high-speed equipment and people who have done this before.

easily installed.

The Locker Essentials program is comprised of stock components that fit together beautifully and easily. We package them and your installation crew puts them together. Easy to follow instructions guide the team and DE Design is at hand to answer questions. We recommend our teams of dealer trained technicians to ensure an optimum conclusion.

Durable metal drawer sides with integrated ball bearing system ensures longevity in this heavy wear area.

Accurate installation is simplified with adjustable legs on each unit.

who we are.

We are a rebranded company, owned by the management, originally founded in 1972. Our deep rooted expertise is grounded in building office furniture that fully integrates affordability and functionality into quality products. We have taken this expertise and turned our attention to making great personal storage and shared living furniture.

Because functionality has always been defined by our clients and their unique needs, if you have not found exactly what you are looking for in this brochure there are many more options available to you in our CLUB category.

Here we offer a fully customized solution. There are very few restrictions on what can be accomplished by our team of expert craftsmen. Some of these projects are highlighted on our website under CLUB at dewood.com. Please take a look. We are here to help.

DE Design - Client-focused Solutions.

responsibly sustainable.

At DE Design, our commitment is to continuously seek new and improved ways to reduce our impact on the plant. From our manufacturing facilities, through to our processes and product, to how they affect your work, leisure or learning environments, our promise is to tread lightly.

We maintain strict guidelines in all aspects of managing our environmental impact, and are continuously seeking ways to improve our systems and reduce our footprint. We are committed to GREENGUARD certification for our products, ensuring low chemical emissions and improved indoor air quality, and energy efficient manufacturing processes. Choose from our products with confidence in our environmental standing.
